Time: 20:15-21:00, February 12th 2020

§1. Opening formalities [20:39-20:44]

- a. Meeting opening *at 20:39*
Attendees: Emma Riese, Mobit Daga, Alessandro Enrico, Tharagan Kumar, Lorenzo Marchetti, Karl Johan Westrin
- b. Invited: chapter board, head of educational affairs and chapter auditors.
- c. Choice of meeting chairperson.
Emma was elected.
- d. Choice of meeting secretary.
Alessandro was elected.
- e. Choice of meeting minutes checker.
Tharagan was elected.
- f. Approval of meeting agenda
Approved.
- g. Latest protocol checking and signing.
Signed.

§2. Reports & updates [20:44-20:54]

- a. Board reports (see: [PM on doctoral representation 2020](#))
Mobit filled it in. Lorenzo has not filled the board report, but has no special activity to report since the last meeting. It is important to reply to the Google Form to make sure we reach the majority for the possibility of making decisions during the Chapter Board meeting.
- b. THS central (KL/KS) and KF
Mobit advertised the possibility to attend FF meeting/take care in FF errands.

§3. Discussion points [20:54-21:24]

- a. Email policy
The School Level Council's functional email will be added to all School Council mailing list. School Council Chairpersons will have editing access to their own mailing lists and shared email folders.

- b. School collegium
PhD students are now invited. Mohit will send the related PM to the Council Chairpersons and who can decide on whether to participate or not to.
- c. New structure for board meeting - could every other board meeting be more like a workshop where we work with one particular question?
The Board discussed the possibility of reducing the number of items on the agenda and at the same time work on organizing the work between meetings.

§4. Decision points [21:24-21:40]

- a. Representative in the Ethics committee
Tabled.
- b. Representative in Utbildningsnämnden
Left vacant at the moment, CFU as contact.
- c. Representative in the Sustainability council

Background

The objectives of the PhD Chapter are to promote more effective and higher quality PhD education and research, promote a stimulating working environment and improve the general conditions for its members. The PhD Chapter should also work towards a greater unity and fellowship among its members.

The purpose of the operational plan is to guide the executive work of the board of directors throughout the operational year 2019/2020. The operational plan has been prepared using the input of previous board and refined during the introduction day for operational year 2019/2020 held on the 14th of August 2019. All elected board members *Emma Riese*, *Tage Mohammadat*, *Rinat Yapparov*, *Alessandro Enrico* and *Kasra Khatami Mashbadi* participated in the development of the operational plan. In addition, *Ksenia Loskutova*, PhD Chapter representative in the union council/Kårfullmäktige (KF) also participated.

Focus Areas of Operations during 2019/2020

Visibility and social events

Last year 2018/2019, the PhD Chapter focused on visibility and organized lots of events, such as board game nights, writing workshops and quiz nights. The PhD Chapter also sent out newsletters through emails and used Facebook and Instagram to advertise events. However, the PhD Chapter work that was not social was not as clearly communicated and visible aside from the website. This year's focus is to improve the visibility of chapter work.

Done:

- Organisations: External Representation & contact in/with THS councils, KTH labour unions, Stockholm's doctoral associations.
- Members: Newsletter - Fall/2019, Winter 2019, Pubs & chapter event Oct 2019.
- School councils: Meeting Councils
- Public: Improvement of website and communication on Facebook
- Sportevent (Ice skating Dec)

To do:

- Organisations: Continue external Representation & contact in/with THS councils, KTH labour unions, Stockholm's doctoral associations.
- Members: Newsletters - Spring/2020, - Summer/2020; Pubs & chapter events; Regular posts on social media
- Public: Improvement of information on website and communication on Facebook
- School Council: Educational bootcamp

Creating a stronger community

Not all PhD students have lots of colleagues in their research field, and being a PhD student could be experienced as lonely for some. The PhD Chapter should aim to tie together all PhD students and create a friendly environment for all PhD students.

Done:

- Collaborative event with PhDs in Stockholm - September 2019
- Chapter event with board games and Pub - October 2019
- Chapter event with christmas theme or/and Pub - November/Dec 2019

To do:

- Stockholm's doctoral event - May 2020?
- 40th anniversary party - March 2020, pub?
- Chapter event with board games and Pub - May 2020

Welcoming new PhD students

As part of the chapters responsibility towards new members, the PhD Chapter should work to welcome new doctoral students through participating in reception ceremonies and sending a welcoming letter to all newly admitted PhD students.

Done:

- Welcome letter drafted.
- Circulating the letter to respective officials.

To do:

- -

Birthday Party

The PhD Chapter is turning 40 years the 24th of March and this will have to be acknowledged. Our idea is to arrange some sort of Birthday celebration and invite members of the PhD Chapter as

well as members from other chapters and PhD students from other Universities. This event could also improve the visibility of the Chapter.

Done:

- Pre-discussions on possible venues and arrangements

To do:

- Deciding on budget, procedures, logistics, team.

Collaborations

The PhD Chapter share the Chapter hall together with the **Aerospace Chapter**, and therefore should have good collaboration with the Aerospace Chapter on all matters concerning the Chapter hall (such as pubs and events).

Done:

- Pre-agreements on 4 pubs and chapter events
- Pre-agreements on monthly pubs for oct, nov, dec.
- Monthly pub on oct, nov

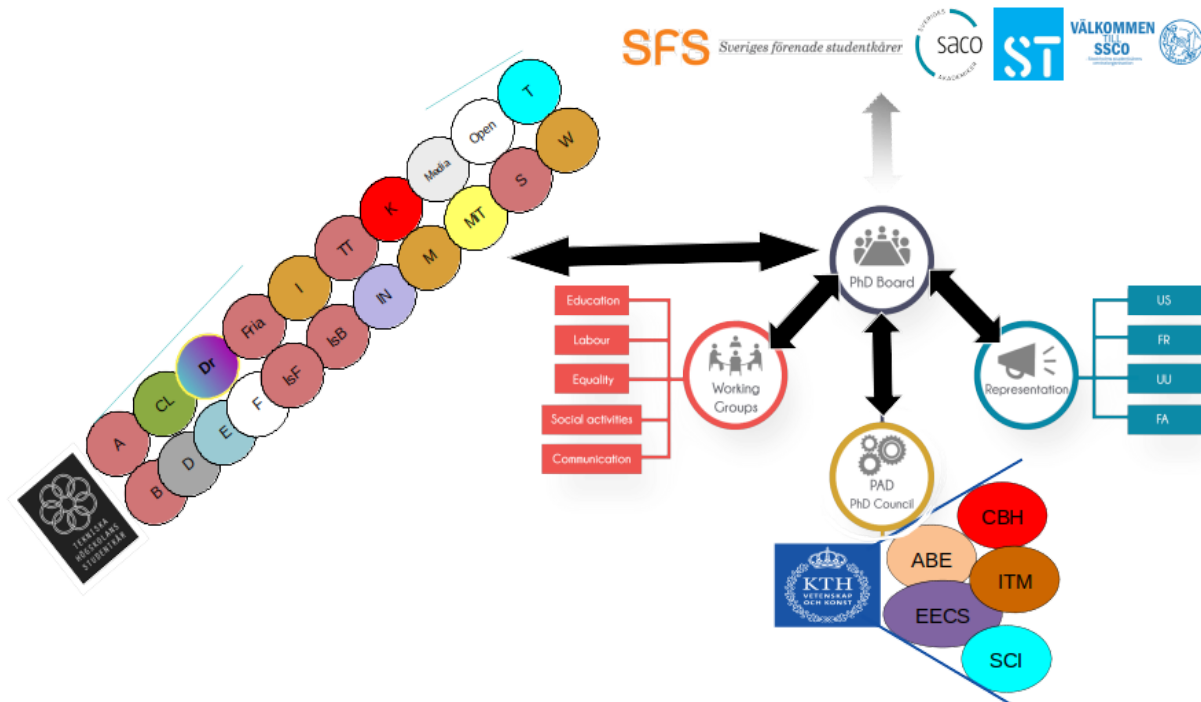

To do:

- Monthly pubs on jan-

Educational Advocacy

Doctoral students influence on every level

The PhD Chapter is part of the student union at KTH (THS - Tekniska högskolans studentkår). THS is responsible for student influence at all levels of education, including third-cycle education. Since the PhD Chapter is the only chapter at the student union that exclusively organizes and represents PhD students, the chapter should work with THS such that doctoral influence is working in a bottom-up approach at all levels and forums affecting research and research education. The PhD Chapter should also work together with THS central, KTH Doctoral councils and **PhD Advisor**, to lift up issues in a more effective way.

Done:

- Referral on THS delegation order
- Request for new policy draft for time compensation, currently a discussion point in FU (Forskarutbildningsutskottet) . Working group appointed in December, but the work has not started yet.
- Updated of PM on guide on representation

To do:

- School Council: Educational bootcamp (with help of PhD adviser)
- Update of working directives
- Contribute to working group regarding time-compensation.

Sustainable engagement

One of the challenges for the PhD Chapter is to ensure a **sustainable engagement**. We need to make sure that it is possible to be engaged in the PhD Chapter in a sustainable way by ensuring that all representatives, no matter on which level are getting **sufficient time compensation**. This is a crucial part in making sure that our representatives are not forced to work overtime due to their

representation role. Being a representative should not add any additional psychological or study burdens and be grounds for a prolongation.

Done:

- PM on working directives detailing communication
- PM on representatives with time compensation for HT19 as work baseline.
- Request for new policy draft for time compensation, currently a discussion point in FU (Forskarutbildningsutskottet) which will probably be decided to appoint a working group for this.

To do:

- Workshop with representatives on role description and working routines.

Communication and transparency

All representatives have a responsibility towards the doctoral students at KTH they represent at large to be transparent about their work. In order for the student influence to be truly working, **communication** between the local levels, from each PAD (program responsible representative, programansvarig doktorand), to the school councils (doktorandråd) to the central level the PhD Chapter is necessary. All representatives should also be confident about what their role entails and who to contact if they need advice or assistance. The PhD Chapter should be informed and approve all appointments for all local and central representation and also offer support for representatives. For central representation, the PhD Chapter should have a possibility to appoint representatives and keep THS informed about appointed representatives.

Done:

- New clause on PM on working directives detailing framework for communication
- Slack-channels between the PhD Chapter board and all school councils has been established.

To do:

- -

Synchronisation with school councils and PADs

In 2018/19, the chapter enacted new board member definition in which one of the board members has the role **Council coordinator**. This is one step towards getting the communication between the local and central level to work more smoothly. During 2019/2020 the PhD Chapter board shall plan to specifically invite school councils chairs to take part in board meetings and chapter

meetings. We also plan to work together with THS central to unify how PADs are appointed and develop a work description for a PAD.

Done:

- Meeting with EECS council
- Meeting with ABE council
- Meeting with ITM representatives
- Meeting with SCI representatives
- Meeting with CBH council

To do:

- Central elections for councils

External Collaboration

During 2018/2019 the PhD Chapter started a collaboration with PhD organizations from Karolinska Institutet (KI) and Stockholm University (SU). A network that met and discuss questions and exchange experiences regarding doctoral issues. The PhD chapter should continue to collaborate with doctoral organisations in Stockholm and Sweden to exchange best practices and strengthen the collective voice of doctoral students in Sweden.

Done:

- Established a new collaboration with Stockholm's school of economics for a Pub in September.
- Formulating strategies for future collaborations. For example, setting up some [formal grounds](#).

To do:

- -

Survey to identify issues

During 2018/2019, the previous board started to develop a survey to be sent out to all PhD students at KTH, with questions regarding PhD life, such as supervision, Individual study plans (ISPs), balance between work and private life and distribution between thesis work and course work. This was done with the objective of identifying common issues and getting the general opinion from the PhD students. Distributing a survey with the PhD Chapter as the sender would also be one way to improve visibility for the chapter, as well as getting input from the Chapter

members on the work of the Chapter. This survey was however not distributed during 2018/2019 and the current board will work towards distributing it during 2019/2020.

Done:

- Draft for the survey was made and reviewed.
- Circulated to doctoral students with a registered study activity in Ladok during fall semester 2019 (around 1400 PhD students).

To do:

- Analyze/summarize and present the data.

PhD students' environment

The PhD student ladder, is currently based solely on research progression, not on time spent. The requirements for moving up the salary ladder could also differ between different research fields and education programs. For instance, to move to the 50% step, some require PhD students to have a seminar with an internal or external opponent, and some require the PhD student to write and defend a Liciate thesis. The PhD Chapter should advocate to have a consistent progression criteria preferably based on time that also incentivise accomplishments.

Done:

- A survey was made with Stockholm's doctoral associations on the matter and identified the practices at Stockholm's university and Karolinska Institute to be similar to the spirit of this formulation.
- Pre-discussions were raised at labour union ST at SACO on the matter in September. An enquiry to the respective salary negotiation groups. Both SACO and ST share concerns on the system and to various degrees agree with PhD chapter stance.
ST assessed that the question is mainly a quality question and not strictly a salary increase issue usually discussed during 'lönerevision' meetings. As such it can't be brought up during this year salary review meeting for the collective agreement meeting concerning PhD students' salary ladder. According to ST representatives, the earliest this issue can be brought up during spring-fall 2020.
SACO explained that the issue had been discussed for a while, but what is in this year's proposal is 500SEK increment on 24th Oct meeting, and all other questions are postponed to next year's meeting.
