"The event shall be organised on 17th of June, as the last event before summer. The weather is nice and as a council, we thought is a good idea to organize bbq in Albanova rooftop. Of course, there will be vegetarian and vegan (if needed) options. Refreshments and some desserts for the students and music. "

Division of funds -

Food + refreshments - $40 * 250 \text{ SEK/person} = 10000 \text{ SEK}$

Division of funds - $22 * 200 \text{ SEK/person} = 4400 \text{ SEK}$

2025-06-09: Henrik Johansson (EECS) requests 3000 SEK for a BBQ event with the EMF division.

"A social and teambuilding activity for the PhD students at the EMF division. We plan to buy some food and use a grill at our division. The exact cost for the food is hard to predict, since people will probably eat different types of food, but we estimate around 200 SEK/person. We also do not know if we will be exactly 15 people, but we estimate it to be 15 based on a form we sent out within our division."

Division of funds - $15 * 200 \text{ SEK/person} = 3000 \text{ SEK}$

2025-06-09: Kaung Myat (ITM) requests 750 SEK for a Fika session with the MSE department.

"A debriefing event to share information on what the PhD students at ITM are going through and much more emphasis on the PhD journey at MSE. The PA is invited so that major issues can also be discussed with him. "

Division of funds -

$15 * 50 \text{ SEK/person} = 750 \text{ SEK}$

2025-06-09: Boel Berg Wincent (ABE) requesting 2687 SEK.

"Saco- s KTH will distribute Sveriges ingenjörer/Saco goodie bags during the introduction meeting for new PhD students. I will put SI stickers on the lids of the lunch boxes that will be included in the goodie bags. I have ordered 100 bags, 100 tablettaskar and 240 stickers (so if this is a hit, I think it would be nice to also give away lunch boxes to PADs/councils/chapter members to break the ice/ good conversation starter regarding union membership, but that is for later). Additionally, I've also asked for more material from Sulf and ST have some folders and candy to add. See photo below (I've already discussed this with Hilma who also has talked to Hemanth)

The idea is to use the 99 boxes and bags throughout all the introduction meetings during the academic year 2025/2026."

Division of funds - $33 * 3 \text{ lunchboxes} = 2607 \text{ SEK} + 79 \text{ SEK (shipping)}$

Total - 2687 SEK

To sum up the updated funding request discussions: Boel is requesting 2687 SEK for lunch boxes that she will put SI stickers on and that will be included in a SACO-S goodie bag for new PhD students. I will later request funding for PhD chapter merch that will also go into the goodies, to "show" that the chapter is part of funding the goodie bags.

"The event is supposed to be a 3 times kub meeting where all phd students of the two divisions are invited to join outside to socialize and play kub together, as a team-building activity to boost the well-being among phd students. There are already many teams who have applied to play, and we include people who sign up alone to other teams to let everyone join. We will join together outside at 16.00 to eat some snacks, socialize & on the final Friday we would like to organize a grill for everyone who has joined.
